**Wichita State fills three endowed professorships**

Wichita State University has named three distinguished scholars to hold endowed professorships in the College of Fairmount College of Liberal Arts and Sciences, the WSU Foundation has announced.

honor a university can bestow on a faculty member. They are considered crucial to a university's ability to recruit and retain the highest-quality faculty.

Susan G. Sterrett was appointed to the Curt Gridley Professorship in the Philosophy and Philosophy of Science in WSU's Fairmount College of Liberal Arts and Sciences.

Sterrett's fields of research are philosophy of science, philosophy of mind and philosophy of language. She has also taught courses on issues concerning energy and the environment.

She has taught at Duke University, Carnegie-Mellon University and the University of

University, master's degree from the University of Pittsburgh and a doctorate in philosophy from the University of Pittsburgh.

"I'm really happy about holding this endowed professorship," Sterrett said. "It's an honor and a responsibility. Among other things, I expect to extend my philosophical work on models in science, probably next to issues in ecology, the earth sciences, energy and the environment."

The Curt Gridley Professorship in the Philosophy and Philosophy of Science was established by Curt Gridley, and his wife, Tracy Hoover. Gridley is a 1980 graduate of Wichita State University with degrees in philosophy and mathematics.

"Tracy and I are excited to have Dr. Sterrett named to our endowed professorship," Gridley said. "Her multidisciplinary background, spanning engineering, mathematics and

strong desire to connect her research and teaching to the greater Wichita community.”

Michael Papadakis has been appointed as the H. Russell Bomhoff Endowed Professor of Engineering. Papadakis is a part-time professor of aerospace engineering at Wichita State and is cited because of his exceptional research and scholarly achievements.

Papadakis received his undergraduate and master's degree in aeronautical engineering from Loughborough University in the United Kingdom. He earned his doctoral degree in aeronautical engineering at Wichita State in 1986. He has worked in the aerospace department of WSU's College of Engineering since then.

Papadakis is the director of the Aircraft Icing Lab at Wichita State. The Aircraft Icing Lab works closely with local aviation companies to assist them in their research in the field of icing and ice protection system engineering. His research interests include aircraft icing, computational fluid dynamics, computational aeroacoustics and experimental aerodynamics.

The H. Russell Bomhoff Endowed Professorship is named in honor of H. Russell Bomhoff and his wife, Jane Bomhoff. H. Russell Bomhoff is a lifelong Kansan who founded Precision Batters, Inc., which has been one of the leading producers of high-quality aircraft furnishings.

Barbara Morrison was appointed to the Janice M. Riordan Endowed Professorship in Maternal and Child Health. Morrison is a professor of nursing at WSU. Her areas of expertise are breastfeeding, human lactation, and endocrinology and neural development of the infant. She is internationally known for her research on kangaroo care, or the skin-to-skin contact between newborn children and their mothers. She has published numerous articles and books on this topic.

Morrison received her doctorate in maternal and child nursing/nurse-midwifery from the University of Illinois-Chicago. She previously taught at Lynn School of Health Sciences Reserve University and at the Ursuline College/Breen School of Nursing at Case Western Reserve in Pepper Pike, Ohio.

~~position.”~~ -Campbell, chair of the WSU School of Nursing. “Dr. Morrison is a passionate educator whose research on breastfeeding and kangaroo care is nationally recognized.”

The endowed professorship was established by an anonymous donor to honor Janice Riordan, a WSU nursing professor and noted author, lecturer, ~~and a prominent leader in the field of maternal and child health.~~ Her research focus on breastfeeding education and research in the WSU School of Nursing and to fund clinical research that will help mothers with breastfeeding challenges.
