Meet with your study abroad advisor about specific application for the program/university you intend to apply. (Often times, this can be an extensive application so it is important to begin this process early and submit the application well in advance.)

Keep in touch with your study abroad advisor throughout the process and have everything submitted at least three weeks prior to the program/university's deadline so your advisor can review it and then, mail it to that university directly.

Once acceptance letter has been received, you should apply for student visa if required by the country where you will study. (Normally, you can only apply up to 3 months prior to your departure and it is best to apply at least 2 to 3 months before your scheduled departure if possible. Some visas can be issued in as little as one week and others can take a couple of months.)
