Assessment Committee asked...

1. For a review of NSSE and FSSE results for Academic year 2011
2. For a summary of results that might be useful in considering two specific areas:
3. That we begin a discussion of how, or if, NSSE and/or FSSE results could be used to address issues related to assessment of student learning.

First a brief review of NSSE & FSSE

NSSE and FSSE: Commonalities

- National surveys designed to measure “engagement” in the total collegiate experience for freshmen and senior students.
- **NSSE:** Students are asked to respond to questions about their experiences at the university including academics, university services, and various out of classroom activities.
- **FSSE:** Faculty teaching undergraduate courses are asked similar questions based on their experiences with students and their practices in a selected undergraduate course section.

The image shows a large rectangular area with a yellow-to-orange gradient background, possibly representing a redacted section or a placeholder for content. The area is framed by a yellow border. Below the main content area, there are several horizontal yellow bars, suggesting a table or a list of items. The overall appearance is that of a presentation slide or a document page with a significant portion of its content obscured or redacted.
